**AUDITORS' REPORT**

**DECEMBER 31, 2024 AND 2023**

---

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

## INDEPENDENT AUDITORS' REPORT TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of Transcom, Inc.

### **Opinion**

We have audited the accompanying balance sheets of Transcom, Inc. (the "Company") as of December 31, 2024 and 2023, and the related statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the financial statements, including a summary of material accounting policies.

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2024 and 2023, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission.

### **Basis for opinion**

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Key audit matters**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Company's 2024 financial statements. These matters were addressed in the context of our audit of the financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matter for the Company's 2024 financial statements is stated as follows:

## **Cut-off of revenue**

### Description

Refer to Note 4(26) for accounting policies on revenue recognition.

The Company derives its revenues from the sales of microwave semiconductor devices. Sales revenue is recognized when risk and reward of the goods have been transferred upon acceptance by customers according to the terms specified in the contracts. As the revenue recognition procedure involves manual procedures and has significant impact on financial statements, we considered the cut-off of revenue a key audit matter for this year's audit.

### How our audit addressed the matter

We performed the following audit procedures in respect of the above key audit matter:

- A. Obtained an understanding and assessed the accounting policies of revenue recognition.
- B. Obtained an understanding and assessed the internal controls over revenue recognition, and tested the effectiveness of internal controls including the delivery process and the timing of revenue recognition.
- C. Performed cut-off tests on sales revenue transactions that took place during a certain period before and after the balance sheet date to confirm whether revenue was recognized when risks and rewards of goods have been transferred and revenue was recognized and recorded in the proper period.

## **Responsibilities of management and those charged with governance for the financial statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the Company's financial reporting process.

### **Auditors' responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

5. Evaluate the overall presentation, structure and content of financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

TRANSCOM, INC.  
NOTES TO THE FINANCIAL STATEMENTS  
YEARS ENDED DECEMBER 31, 2024 AND 2023

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. HISTORY AND ORGANIZATION

- (1) Transcom, Inc. (the “Company”) was incorporated on June 17, 1998 as a company limited by shares under the provisions of the Company Act of the Republic of China (R.O.C.) and other related regulations. The Company is primarily engaged in research, development, production, manufacturing and sale of microwave semiconductor devices, integrated circuits and their subsystems.
- (2) The common stocks of the Company were originally listed on emerging stock market of the Taipei Exchange from December 19, 2012, and have been authorized to trade in Taiwan Stock Exchange since October 25, 2021.

2. THE DATE OF AUTHORIZATION FOR ISSUANCE OF THE FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORIZATION

These financial statements were authorized for issuance by the Board of Directors on March 7, 2025.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

- (1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS<sup>®</sup>”) Accounting Standards that came into effect as endorsed by the Financial Supervisory Commission (“FSC”)

New standards, interpretations and amendments as endorsed by the FSC and became effective from 2024 are as follows:

<u>New Standards, Interpretations and Amendments</u>	<u>Effective date by International Accounting Standards Board</u>
Amendments to IFRS 16, ‘Lease liability in a sale and leaseback’	January 1, 2024
Amendments to IAS 1, ‘Classification of liabilities as current or non-current’	January 1, 2024
Amendments to IAS 1, ‘Non-current liabilities with covenants’	January 1, 2024
Amendments to IAS 7 and IFRS 7, ‘Supplier finance arrangements’	January 1, 2024

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

(2) Effect of new issuances of or amendments to IFRS Accounting Standards as endorsed by the FSC but not yet adopted by the Company

New standards, interpretations and amendments endorsed by the FSC effective from 2025 are as follows:

<u>New Standards, Interpretations and Amendments</u>	<u>Effective date by International Accounting Standards Board</u>
Amendments to IAS 21, 'Lack of exchangeability'	January 1, 2025

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

(3) IFRS Accounting Standards issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRS Accounting Standards as endorsed by the FSC are as follows:

<u>New Standards, Interpretations and Amendments</u>	<u>Effective date by International Accounting Standards Board</u>
Amendments to IFRS 9 and IFRS 7, 'Amendments to the classification and measurement of financial instruments'	January 1, 2026
Amendments to IFRS 9 and IFRS 7, 'Contracts referencing nature-dependent electricity'	January 1, 2026
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'	To be determined by International Accounting Standards
IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Insurance contracts'	January 1, 2023
Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 – comparative information'	January 1, 2023
IFRS 18, 'Presentation and disclosure in financial statements'	January 1, 2027
IFRS 19, 'Subsidiaries without public accountability: disclosures'	January 1, 2027
Annual Improvements to IFRS Accounting Standards—Volume 11	January 1, 2026

Except for the following, the above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

IFRS 18, 'Presentation and disclosure in financial statements'

IFRS 18, 'Presentation and disclosure in financial statements' replaces IAS 1. The standard introduces a defined structure of the statement of profit or loss, disclosure requirements related to management-defined performance measures, and enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes.

#### 4. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

##### (1) Compliance statement

The financial statements of the Company have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, International Financial Reporting Standards, International Accounting Standards, IFRIC<sup>®</sup> Interpretations, and SIC<sup>®</sup> Interpretations that came into effect as endorsed by the FSC (collectively referred herein as the “IFRSs”).

##### (2) Basis of preparation

A. Except for the following items, these financial statements have been prepared under the historical cost convention:

- (a) Financial assets at fair value through profit or loss.
- (b) Financial assets at fair value through other comprehensive income.
- (c) Defined benefit liabilities are recognized based on the net amount of pension fund assets less present value of defined benefit obligation.

B. The preparation of financial statements in conformity with IFRSs requires that use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 5, “Critical accounting judgements, estimates and key sources of assumption uncertainty”.

##### (3) Foreign currency translation

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates (the “functional currency”). The financial statements are presented in New Taiwan Dollars, which is the Company’s functional and presentation currency.

A. Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise.

B. Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.

C. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences

are recognized in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.

D. In the statement of comprehensive income, all foreign exchange gains and losses are presented in “Other gains and losses”.

(4) Classification of current and non-current items

A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:

- (a) Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;
- (b) Assets held mainly for trading purposes;
- (c) Assets that are expected to be realized within twelve months from the balance sheet date;
- (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.

B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:

- (a) Liabilities that are expected to be settled within the normal operating cycle;
- (b) Liabilities arising mainly from trading activities;
- (c) Liabilities that are to be settled within twelve months from the balance sheet date;
- (d) It does not have the right at the end of the reporting period to defer settlement of the liability at least twelve months after the reporting period.

(5) Cash equivalents

A. Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

B. Time deposits and bills under repurchase agreements that meet the above criteria and are held for the purpose of meeting short-term cash commitment in operations are classified as cash equivalents.

(6) Financial assets at amortized cost

A. Financial assets at amortized cost are those that meet all of the following criteria:

- (a) The objective of the Company’s business model is achieved by collecting contractual cash flows.
- (b) The assets’ contractual cash flows represent solely payments of principal and interest.

B. The Company’s time deposits which do not fall under cash equivalents are those with a short maturity period and are measured at initial investment amount as the effect of discounting is immaterial. Cash and cash equivalents pledged to others are consistent with the definition of financial assets at amortized cost.

(7) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Company a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(8) Impairment of financial assets

For debt instruments measured at amortized cost, at each reporting date, the Company recognizes the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognizes the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable that do not contain a significant financing component, the Company recognizes the impairment provision for lifetime ECLs.

(9) Derecognition of financial assets

The Company derecognizes a financial asset when the contractual rights to receive cash flows from the financial asset expire.

(10) Inventories

Inventories are stated at the lower of cost and net realizable value. Cost is determined using the weighted-average method. The cost of finished goods and work in progress comprises raw materials, direct labor, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale. When the cost of inventory is higher than net realizable value, a write-down is provided and recognized in operating costs. If the circumstances that caused the write-down cease to exist, such that all or part of the write-down is no longer needed, it should be reversed to that extent and recognized as deduction of operating costs.

(11) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortized cost or fair value through other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognized and derecognized using trade date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value and recognizes the transaction costs in profit or loss. The Company subsequently measures the financial assets at fair value, and recognizes the gain or loss in profit or loss.
- D. The Company recognizes the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.

(12) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Company has made an irrevocable election at initial recognition to recognize changes in fair value in other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognized and derecognized using trade date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value plus transaction costs. The Company subsequently measures the financial assets at fair value: The changes in fair value of equity investments that were recognized in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognized as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.

(13) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalized.
- B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

<u>Assets</u>	<u>Useful lives</u>
Buildings and structures	10 ~ 27 years
Machinery and equipment	3 ~ 10 years
Transportation equipment	5 years
Other equipment	3 ~ 10 years

(14) Leasing arrangements (lessee) – right-of-use assets/ lease liabilities

- A. Leases are recognized as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Company. For short-term leases or leases of low-value assets, lease payments are recognized as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are comprised of fixed payments, less any lease incentives receivable. The Company subsequently measures the lease liability at amortized cost using the interest method and recognizes interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognized as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.
- C. At the commencement date, the right-of-use asset is stated at cost comprising the following: (a) the amount of the initial measurement of lease liability, and (b) an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease. The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognized as an adjustment to the right-of-use asset.
- D. For lease modifications that decrease the scope of the lease, the lessee shall decrease the carrying amount of the right-of-use asset and remeasure the lease liability to reflect the partial or full termination of the lease, and recognize the difference in profit or loss.

(15) Intangible assets

Computer software is stated initially at cost and amortized on a straight-line basis over its estimated useful life of 3 to 10 years.

(16) Impairment of non-financial assets

The Company assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.

(17) Borrowings

Borrowings comprise long-term and short-term banks loans. Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in profit or loss over the period of the borrowings using the effective interest method.

(18) Notes and accounts payable

A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.

B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(19) Derecognition of financial liabilities

A financial liability is derecognized when the obligation specified in the contract is either discharged or cancelled or expires.

(20) Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be reliably estimated. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation on the balance sheet date, which is discounted using a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to passage of time is recognized as interest expense. Provisions are not recognized for future operating losses.

(21) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expense in that period when the employees render service.

B. Pensions

(a) Defined contribution plan

For defined contribution plan, the contributions are recognized as pension expense when they are due on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plan

- i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Company in current period or prior periods. The liability recognized in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds (at the balance sheet date) of a currency and term consistent with the currency and term of the employment benefit obligations.
- ii. Remeasurements arising on defined benefit plan are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.

C. Employees' compensation and directors' remuneration

Employees' compensation and directors' remuneration are recognized as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is paid by shares, the Company calculates the number of shares based on the fair value per share estimated using a valuation technique specified in IFRS 2, 'Share-based Payment'.

(22) Employee share-based payment

- A. For the equity-settled share-based payment arrangements, the employee services received are measured at the fair value of the equity instruments granted at the grant date, and are recognized as compensation cost over the vesting period, with a corresponding adjustment to equity. The fair value of the equity instruments granted shall reflect the impact of market vesting conditions and non-vesting conditions. Compensation cost is subject to adjustment based on the service conditions that are expected to be satisfied and the estimates of the number of equity instruments that are expected to vest under the non-market vesting conditions at each balance sheet date. Ultimately, the amount of compensation cost recognized is based on the number of equity instruments that eventually vest.
- B. Employee restricted stocks:
  - (a) Restricted stocks issued to employees are measured at the fair value of the equity instruments granted at the grant date, and are recognized as compensation cost over the vesting period.
  - (b) Before meeting the vesting conditions, it has no right to participate in the original shareholders' distribution (subscription) of shares and dividends.
  - (c) For restricted stocks where employees do not need to pay to acquire those stocks, if the employees resign during the vesting period, the Company will redeem at no consideration and retire those stocks.

(23) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which cases the tax is recognized in other comprehensive income or equity.
- B. The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the country where the Company operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred income tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.
- D. Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognized and recognized deferred income tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. Deferred income tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realize the asset and settle the liability simultaneously.

(24) Share capital

- A. Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.
- B. Where the Company repurchases the Company's equity share capital that has been issued, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company's equity holders. Where such shares are subsequently reissued, the difference between their carrying amount and any consideration

received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company's equity holders.

(25) Dividends

Cash dividends are recorded as liabilities in the Company's financial statements in the period in which they are resolved by the Board of Directors. Stock dividends are recorded as stock dividends to be distributed in which they are resolved by the Company's shareholders and are reclassified to ordinary shares on the effective date of new shares issuance.

(26) Revenue recognition

Sales of goods

- A. The Company manufactures and sells microwave semiconductor devices, integrated circuits and their subsystems. Sales are recognised when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, or the Company has objective evidence that all criteria for acceptance have been satisfied.
- B. A receivable is recognized when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

(27) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these financial statements requires management to make critical judgements in applying the Company's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have no significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

## 6. DETAILS OF SIGNIFICANT ACCOUNTS

### (1) Cash and cash equivalents

	<u>December 31, 2024</u>	<u>December 31, 2023</u>
Cash:		
Cash on hand	\$ 125	\$ 125
Checking accounts and demand deposits	<u>481,520</u>	<u>640,296</u>
	<u>481,645</u>	<u>640,421</u>
Cash equivalents:		
Time deposits	<u>101,837</u>	<u>501,144</u>
	<u>\$ 583,482</u>	<u>\$ 1,141,565</u>

A. The Company associates with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.

B. The Company has no cash and cash equivalents pledged to others as of December 31, 2024 and 2023.

### (2) Financial assets at amortized cost

	<u>December 31, 2024</u>	<u>December 31, 2023</u>
Current items:		
Time deposits with a maturity of over three months	<u>\$ 91,735</u>	<u>\$ 120,965</u>
Non-current items:		
Pledged time deposits	<u>\$ 5,437</u>	<u>\$ 5,437</u>

A. The Company recognized interest income in profit or loss on financial assets at amortized cost amounting to \$5,982 and \$6,360 for the years ended December 31, 2024 and 2023, respectively.

B. As of December 31, 2024 and 2023, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the financial assets at amortized cost held by the Company was its book value.

C. For more information about the Company's financial assets at amortized cost pledged to others as collateral as of December 31, 2024 and 2023, refer to Note 8, 'Pledged assets'.

D. Information relating to credit risk of financial assets at amortized cost is provided in Note 12(2), 'Financial instruments'. The counterparties of the Company's investments in certificates of deposits are financial institutions with high credit quality, so the Company expects that the probability of counterparty default is remote.

### (3) Notes and accounts receivable

	<u>December 31, 2024</u>	<u>December 31, 2023</u>
Notes receivable	<u>\$ 28</u>	<u>\$ -</u>
Accounts receivable	\$ 300,296	\$ 212,370
Less: Allowance for uncollectible accounts	( 2,741)	( 1,778)
	<u>\$ 297,555</u>	<u>\$ 210,592</u>

A. The ageing analysis of notes and accounts receivable is as follows:

	December 31, 2024		December 31, 2023
	Notes receivable	Accounts receivable	Accounts receivable
Not past due	\$ 28	\$ 201,246	\$ 172,411
Less than 90 days	-	96,209	39,352

(14) Pensions

- A. The Company has a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is not enough to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company will make contribution for the deficit by next March. Information on the Company's aforementioned pension plan is as follows:

- (a) The amounts recognized in the balance sheet are as follows:

	<u>December 31, 2024</u>	<u>December 31, 2023</u>
Present value of defined benefit obligations	(\$ 50,754)	(\$ 49,910)

(c) The Bank of Taiwan was commissioned to manage the Fund of the Company's defined benefit pension plan in accordance with the Fund's annual investment and utilization plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund" (Article 6: The scope of utilization for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilization of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local

banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan assets fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2024 and 2023 is given in the Annual Labor Retirement Fund Utilization Report announced by the government.

(d) The principal actuarial assumptions used were as follows:

	<u>For the years ended December 31,</u>	
	<u>2024</u>	<u>2023</u>
Discount rate	<u>1.60%</u>	<u>1.20%</u>
Future salary increases	<u>2.25%</u>	<u>2.25%</u>

Assumptions regarding future mortality experience are set based on the sixth experience life table of Taiwan life insurance industry for the years ended December 31, 2024 and 2023, respectively.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	<u>Discount rate</u>		<u>Future salary increases</u>	
	<u>Increase 0.25%</u>	<u>Decrease 0.25%</u>	<u>Increase 0.25%</u>	<u>Decrease 0.25%</u>
<u>December 31, 2024</u>				
Effect on present value of defined benefit obligation	(\$ <u>911</u> )	<u>\$ 943</u>	<u>\$ 841</u>	(\$ <u>817</u> )
<u>December 31, 2023</u>				
Effect on present value of defined benefit obligation	(\$ <u>981</u> )	<u>\$ 1,018</u>	<u>\$ 912</u>	(\$ <u>884</u> )

The sensitivity analysis above is based on one assumption which changed while the other conditions remain unchanged. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

(e) Expected contributions to the defined benefit pension plan of the Company for the year ending December 31, 2025 amount to \$1,174.

(f) As of December 31, 2024, the weighted average duration of the retirement plan is 8 years. The analysis of timing of the future pension payment was as follows:

Within 1 year	\$	15,951
1-2 years		1,607
2-5 years		7,869
Over 5 years		31,993
	\$	<u>57,420</u>

B. Effective July 1, 2005, the Company has established a defined contribution pension plan (the “New Plan”) under the Labor Pension Act (the “Act”), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on 6% of the employees’ monthly salaries and wages to the employees’ individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment. The pension costs under the defined contribution pension plan of the Company for the years ended December 31, 2024 and 2023 were \$10,038 and \$9,137, respectively.

(18) Retained earnings

A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset accumulated deficit from prior years, then 10% of the remaining amount shall be set aside as legal reserve until the legal reserve equals the paid-in capital. The Company may then appropriate or reverse a certain amount as a special reserve according to the relevant regulations. The remainder, if any, may be appropriated along with the accumulated unappropriated earnings, shall be proposed by the Board of Directors and resolved by the shareholders as bonus to shareholders. The Board of Directors is authorised to resolve the

distribution of the abovementioned earnings, legal reserve and capital surplus which distributed in the form of cash, by the resolution adopted by the majority vote at its meeting attended by two-thirds of the total number of directors, and then reported it to the shareholders; the proposal of appropriation shall be approved by the shareholders according to the regulations if dividends would be distributed by issuing new shares. The Company's dividend distribution policy aligns with the current and future development plan by taking into account of factors such as investment environment and capital needs, along with the consideration of shareholders' interest. Every year, the dividend must not be less than 40% of the distributable earnings. However, in the case where accumulated distributable earnings is less than 10% of paid in capital, the Company may choose not to distribute dividends. The bonus can be distributed in cash or shares, among which the cash dividend must not be less than 10% of the appropriated dividend.

12. OTHERS

(1) Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce the level of debt.

(2) Financial instruments

A. Details of the Company's financial instruments.

Details of the Company's financial instruments by category are provided in Note 6.

B. Financial risk management policies

(a) The Company's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Company's overall financial risk management policies focuses on financial market unpredictability and seeks to minimize potential adverse effects on the Company's financial condition and financial performance.

(b) Risk management is carried out by Finance division of the Company under policies approved by the Board of Directors. Finance division identifies, evaluates and hedges financial risks in close cooperation with the Company's operating units.

C. Significant financial risks and degrees of financial risks

(a) Market risk

I. Foreign exchange risk

(i) The Company operates internationally and is exposed to foreign exchange risk arising from the transactions of the Company used in various currency. Foreign exchange risk arises from future commercial transactions and recognized assets and liabilities.

(ii) Management has set up a policy to require the Company to manage their foreign exchange risk against their functional currency. The Company is required to hedge their entire foreign exchange risk exposure with the Finance division. Foreign exchange risk

arises when future commercial transactions or recognized assets or liabilities are denominated in a currency that is not the entity's functional currency. As the Company offsets these market risks by matching the foreign currency assets and liabilities positions and their payment periods, the Company hedges foreign exchange rate by using natural hedge.

- (iii) The Company's businesses involve some non-functional currency operations (the Company's functional currency: NTD). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

	<u>December 31, 2024</u>		
	<u>Foreign currency amount (in thousands)</u>	<u>Exchange rate</u>	<u>Book value (NTD)</u>
(Foreign currency: functional currency)			
<u>Financial assets</u>			
<u>Monetary items</u>			
USD:NTD	\$ 6,890	32.735	\$ 225,539
JPY:NTD	519,861	0.2079	108,079
<u>Financial liabilities</u>			
<u>Monetary items</u>			
USD:NTD	465	32.835	15,262

	<u>December 31, 2023</u>		
	<u>Foreign currency amount (in thousands)</u>	<u>Exchange rate</u>	<u>Book value (NTD)</u>
(Foreign currency: functional currency)			
<u>Financial assets</u>			
<u>Monetary items</u>			
USD:NTD	\$ 8,809	30.66	\$ 270,052
<u>Financial liabilities</u>			
<u>Monetary items</u>			
USD:NTD	199	30.76	6,117

- (iv) Sensitivity analysis of foreign exchange risk is primarily for foreign currency monetary items at financial reporting date. If the exchange rate of NTD to USD had appreciated/depreciated by 10% with all other factors remaining constant, the Company's net profit after tax for the years ended December 31, 2024 and 2023 would increase/decrease by \$16,822 and \$21,115, respectively. If the exchange rate of NTD to JPY had appreciated/depreciated by 10% with all other factors remaining constant, the Company's net profit after tax for the years ended December 31, 2024 and 2023 would increase/decrease by \$8,646 and \$—, respectively.

- (v) The total exchange gain (loss), including realized and unrealized arising from significant foreign exchange variation on the monetary items held by the Company for the years

ended December 31, 2024 and 2023 amounted to \$9,230 and (\$275), respectively.

## II. Price risk

- (i) The Company's equity securities, which are exposed to price risk, are the held financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, the Company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Company.
- (ii) The Company's investments in equity securities issued by domestic companies. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 2% with all other variables held constant, as a result of gains/losses on equity securities classified as at fair value through profit or loss. Other components of equity would have increased/decreased by \$19,102 and \$564, respectively, as a result of other comprehensive income on equity investment classified as at fair value through other comprehensive income.

## III. Cash flow and fair value interest rate risk

About interest rate risk of sensitivity analysis, if the borrowing interest rate had increased/decreased by 10% with all other variables held constant, post-tax profit for the years ended December 31, 2024 and 2023 would have decreased/increased by \$131 and \$50, respectively. The main factor is that changes in interest expense result from floating rate borrowings.

### (b) Credit risk

- I. Credit risk refers to the risk of financial loss to the Company arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable, financial assets at amortized cost and guarantee deposits based on the agreed terms.
- II. For banks and financial institutions, only those with excellent credit quality are accepted. According to the Company's credit policy, the Company is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings. The utilisation of credit limits is regularly monitored.
- III. The Company adopts following assumptions under IFRS 9 to assess whether there has been a significant increase in credit risk on that instrument since initial recognition:
  - (i) If the contract payments were past due over 30 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
  - (ii) For investments in bonds that are traded over the counter, if any external credit rating agency rates these bonds as investment grade, the credit risk of these financial assets

is low.

IV. The following indicators are used to determine whether the credit impairment of debt instruments has occurred:

- (i) It becomes probable to their financial difficulties.
- (ii) Default or delinquency in interest or principal repayments.

V. The Company adopts the assumptions under IFRS 9, the default occurs when the contract payments are past due over 90 days.

VI. The Company wrote-off the financial assets, which cannot be reasonably expected to be recovered, after initiating recourse procedures. However, the Company will continue executing the recourse procedures to secure their rights.

VII. The Company classifies customer's accounts receivable in accordance with customer types. The Company applies the modified approach using a provision matrix based on the loss rate methodology to estimate expected credit loss under the provision matrix basis.

VIII. The Company used the forecastability of reference interest rate set by the financial industry and the wireless communication industry-related research reports to adjust historical and timely information to assess the default possibility of accounts receivable.

As of December 31, 2024 and 2023, the provision matrix is as follows:

	<u>Not past due</u>	<u>Up to 90 days past due</u>	<u>91~180 days past due</u>	<u>Over 181 days past due</u>	<u>Total</u>
<u>At December 31, 2024</u>					
Loss rate	0.03% ~1.85%	0.03% ~5.33%	52.30%	100.00%	
Total book value	\$ 201,274	\$ 96,209	\$ 2,406	\$ 435	\$300,324
Loss allowance	498	550	1,258	435	2,741
<u>At December 31, 2023</u>					
Loss rate	0.03% ~3.18%	0.03% ~8.44%	51.44%	100.00%	
Total book value	\$ 172,411	\$ 39,352	\$ 546	\$ 61	\$212,370
Loss allowance	915	521	281	61	1,778

IX. Movements in relation to the Company applying the simplified approach to provide loss allowance for accounts receivable are as follows:

	<u>For the years ended December 31,</u>	
	<u>2024</u>	<u>2023</u>
At January 1	\$ 1,778	\$ 4,685
Expected credit loss (gain)	963	(2,907)
At December 31	<u>\$ 2,741</u>	<u>\$ 1,778</u>

X. The counterparties and performing parties of the financial assets at amortized cost and guarantee deposits paid held by the Company are financial institutions or government organizations with good credit quality, thus, the possibility of default is remote and the

credit risk is insignificant.

(c) Liquidity risk

I. Cash flow forecasting is performed in Finance division of the Company. Finance division monitors rolling forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Company does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities.

II. Finance Division invests surplus cash in interest bearing current accounts and bills with repurchase agreement, choosing instruments with appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the abovementioned forecasts. As at December 31, 2024 and 2023, the Company held money market position of \$583,482 and \$1,141,565, respectively, that are expected to readily generate cash inflows for managing liquidity risk.

III. The Company has the following undrawn borrowing facilities:

	<u>December 31, 2024</u>	<u>December 31, 2023</u>
Floating rate:		
Expiring within one year	\$ 95,000	\$ 60,000

IV. The table below analyzes the Company's non-derivative financial liabilities and relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

<u>December 31, 2024</u>	<u>Less than 1 year</u>	<u>Between 1 and 2 years</u>	<u>Between 2 and 5 years</u>	<u>More than 5 years</u>
Non-derivative financial liabilities:				
Short-term borrowings	\$ 105,824	\$ -	\$ -	\$ -
Notes payable	450	-	-	-
Accounts payable	8,105	-	-	-
Other payables	121,832	-	-	-
Lease liabilities	5,344	5,344	16,033	94,021
<u>December 31, 2023</u>	<u>Less than 1 year</u>	<u>Between 1 and 2 years</u>	<u>Between 2 and 5 years</u>	<u>More than 5 years</u>
Non-derivative financial liabilities:				
Short-term borrowings	\$ 40,317	\$ -	\$ -	\$ -
Notes payable	730	-	-	-
Accounts payable	18,238	-	-	-
Other payables	114,496	-	-	-
Lease liabilities	4,970	4,970	14,908	92,714

V. The Company does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.

(3) Fair value information

A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows :

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Company's investment in listed stocks is included in Level 1 .

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability. The fair value of the Company's investment in equity investment without active market is included in Level 3.

B. Financial instruments not measured at fair value

The carrying amount of the Company's financial instruments not measured at fair value (including cash and cash equivalents, current financial assets at amortized cost, notes receivable, accounts receivable, other receivables, non-current financial assets at amortized cost, guarantee deposits, short-term borrowings, notes payable, accounts payable, and other payables) are approximate to their fair values.

C. The related information on financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities are as follows:

(a) The related information on the nature of the assets and liabilities is as follows:

<u>December 31, 2024</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets				
<u>Recurring fair value measurements</u>				
Financial assets at fair value through other comprehensive income				
Equity securities	\$938,603	\$ -	\$ 16,520	\$955,123
<u>December 31, 2023</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets				
<u>Recurring fair value measurements</u>				
Financial assets at fair value through other comprehensive income				
Equity securities	\$ -	\$ -	\$ 28,194	\$ 28,194

(b) Listed stocks held by the Company are measured using their closing prices as their fair values (that is, Level 1).

- (c) Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes. The fair value of financial instruments measured by using valuation techniques can be referred to current fair value of instruments with similar terms and characteristics in substance, discounted cash flow method or other valuation methods, including calculated by applying model using market information available at the balance sheet date.
- D. For the years ended December 31, 2024 and 2023, there was no transfer between Level 1 and Level 2.
- E. The following chart is the movement of Level 3 for the years ended December 31, 2024 and 2023:

	For the years ended December 31,	
	2024	2023
	<u>Equity instrument</u>	<u>Equity instrument</u>
At January 1	\$ 28,194	\$ -
Acquired during the year	4,490	31,992
Loss recognized in other comprehensive income	( 16,164)	( 3,798)
At December 31	<u>\$ 16,520</u>	<u>\$ 28,194</u>

- F. The valuation procedures for fair value measurements being categorised within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented as the exercisable price, and frequently evaluating any other necessary adjustments to the fair value.
- G. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

	Fair value at December 31, 2024	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Non-derivative equity instrument:					
Unlisted shares	\$ 16,520	Market comparable companies	Price to book ratio multiple	1.8%~2.26%	The higher the price to book ratio multiple, the higher the fair value
	Fair value at December 31, 2023	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Non-derivative equity instrument:					
Unlisted shares	\$ 28,194	Market comparable companies	Price to book ratio multiple	1.93%~4.25%	The higher the price to book ratio multiple, the higher the fair value

H. The Company has carefully assessed the valuation models and assumptions used to measure fair value. However, use of different valuation models or assumptions may result in different measurement. The following is the effect of other comprehensive income for the years ended December 31, 2024 and 2023 from financial assets categorised within Level 3 if the inputs used to valuation models have changed:

		December 31, 2024					
				Recognized in profit or loss		Recognized in other comprehensive income	
		Input	Change	Favourable change	Unfavourable change	Favourable change	Unfavourable change
Financial assets							
Equity instrument	Price to book ratio multiple		±5%	\$ -	\$ -	\$ 829	(\$ 829)
		December 31, 2023					
				Recognized in profit or loss		Recognized in other comprehensive income	
		Input	Change	Favourable change	Unfavourable change	Favourable change	Unfavourable change
Financial assets							
Equity instrument	Price to book ratio multiple		±5%	\$ -	\$ -	\$ 1,433	(\$ 1,423)

14. SEGMENT INFORMATION

(1) General information

The Company operates business only in a single industry. The chief operating decision-maker who allocates resources and assesses performance of the Company as a whole, has identified that the Company has only one reportable operating segment.

(2) Measurement of segment information

The chief operating decision-maker evaluates the performance of operating segments based on pre-tax income excluding non-recurring income. For details of operating segments' accounting policies, refer to Note 4.

(3) Information about segment

The segment information provided to the chief operating decision-maker for the reportable segments is as follows:

	For the years ended December 31,	
	2024	2023
Segment revenue		
Revenue from external customers	\$ 1,301,687	\$ 1,250,809
Interest income	11,591	14,604
Depreciation and amortization	77,369	71,837
Other gains and losses	1,651	43,629

Capital expenditure - non-current	58,360	79,975
Segment liabilities	484,906	414,781

(4) Reconciliation for segment

The revenue from external customers reported to the chief operating decision-maker is measured in a manner consistent with that in the statement of comprehensive income. The segment profit (loss), total assets and total liabilities provided to the chief operating decision-maker are measured in a manner consistent with those in the financial statements. Therefore, such reconciliation is not required.

(5) Information on products and services

Revenue from external customers is mainly from research, development, production, manufacturing and sale of microwave semiconductor devices, integrated circuits and their subsystems. Details of revenue are as follows:

	For the years ended December 31,	
	2024	2023
Microwave amplifiers and modules	\$ 991,948	\$ 970,677
Microwave subsystems and their self-produced components	285,966	264,928
